Vaccination Verification Requirements Begin in an Effort to Limit Virus Spread, Business Toolkit Now Available

Multiple vaccination verification requirements now affect L.A. County residents and workers. As of September 20, proof of COVID-19 vaccination status or a negative test result at indoor events in L.A. County with more than 1,000 attendees is required. September 30 was the deadline for healthcare and homecare workers across L.A. County to be fully vaccinated, while L.A. County employees had until October 1 and L.A. City employees have until today, October 5.

On October 7, proof of full vaccination or a negative test result will be required to enter outdoor mega events, and proof of at least one dose of the vaccine will be required to enter or work in indoor portions of bars, lounges, nightclubs, breweries, wineries, and distilleries in L.A. County. On November 4, bars and similar establishments throughout L.A. County will be required to verify full vaccination of all patrons and employees prior to entry to indoor portions of their establishments. To help businesses through all

California Becomes First State in Nation to Announce COVID-19 Vaccine Requirements for Schools

Late last week, Governor Gavin Newsom announced that [California will add the COVID-19 vaccine](#) to the list of vaccinations required to attend school in-person when the vaccine receives full approval from the Food and Drug Administration (FDA) for middle and high school grades, making California the first state in the nation to announce such a measure.

Students will be required to be vaccinated for in person learning starting the term following FDA full approval of the vaccine for their grade span (7-12 and K-6).

Based on current projections for full approval for ages 12+, the state anticipates the requirement would apply to grades 7-12 starting on July 1, 2022. Students who are under the age of full approval but within the grade span will be required to be vaccinated once they reach the age of full approval (with a reasonable period of time to receive both doses), consistent with existing procedures for other vaccines.

To read about the Palos Verdes Peninsula Unified School District's plans, read the [recent update](#) from Superintendent Dr. Alex Cherniss.

Drop, Cover and Hold On for the Great ShakeOut on 10/21 at 10:21 a.m.

With 330 million people living and working in the United States, a major earthquake could cause unprecedented devastation. While some parts of California are more vulnerable to earthquakes than others, the entire state is at a higher risk than the rest of

the country. You could be anywhere when an earthquake strikes: at home, at work, at school, or even on vacation. The key to surviving an earthquake and reducing your risk of injury lies in planning, preparing, and practicing what you and your loved ones will do if it happens.

International ShakeOut Day, observed annually on the third Thursday of October, is a day of individual and community events culminating in the world's largest earthquake drill. International ShakeOut Day is intended to inspire others to prepare for large earthquakes and to prevent disasters from becoming catastrophes. What we do now, in the lead-up to the next major earthquake, will determine our ability to survive and recover. International ShakeOut Day will take place on October 21 this year.

Take part in this year's Great ShakeOut worldwide earthquake drill on Thursday, October 21 at 10:21 a.m. by practicing how to "Drop, Cover, and Hold On" in the event of an earthquake.

The 2021 ShakeOut drill will be the largest preparedness event in history. To participate, go to www.shakeout.org/register/ and pledge your family, school, business, or organization's participation in the drill. Registered participants will receive instructions on how to plan their drill and involve others

Be prepared, RPV!

EMERGENCY PREPAREDNESS TIPS

Disasters Don't Plan Ahead - You Can

Disaster can happen at any time, often with little to no warning. The widespread devastation caused by a catastrophic disaster has the potential to cut you off from the rest of the world for several days. Following a disaster, emergency rescuers will arrive on the scene as soon as possible to assist you, but it may take some time for them to reach you. The time to start thinking about what to do in an emergency is before it happens. By following some simple guidelines, you can help prepare your family, neighborhood, business or school to be better prepared and self-sufficient after the next disaster.

⇒ **HAVE A PLAN:** A good place to begin emergency preparedness is by writing a Family Emergency Plan. Your Plan should include every member of your household including pets.

- Your family may not be together if a disaster strikes, so it is important to talk to your friends and family about how you will communicate before, during, and after a disaster.
- Be sure to establish a family meeting place that's familiar and easy to find.

⇒ **KEEP SUPPLIES:** A Disaster Supply Kit is any pre-assembled group of items that will improve the health and safety of your family during a disaster. Gather supplies that will last for several days after a disaster for everyone living in your home. Download an emergency supply list at ready.gov/kit to get started on your kit. **#BeReady #BuildAKit**

⇒ **BE INFORMED:** It is important to Know what disasters and hazards could affect your area, how to get emergency alerts, and where you would go if you and your family need to evacuate. Make sure your family has a plan and practices it often.

- Learn about natural hazards that may affect the City by reading our recently adopted and FEMA approved [Local Hazard Mitigation Plan](#).
- **Register for emergency notifications from Alert SouthBay:** Alert Southbay is the City's primary vehicle for emergency communications. Users can Sign up for Alert SouthBay emergency alerts by texting "alerts" to 888-777
- Be sure to stay connected and get updates from the City by following RPV on [Nextdoor](#), [Facebook](#), [Twitter](#) and [Instagram](#).

- **Have your Ready! Set! Go! Wildfire Action Plan in place:** It is critical for residents to be familiar with the Ready! Set! Go! program that provides important preplanning and evacuation information. To download the Ready! Set! Go! Wildfire Action Plan and view informational how-to videos, visit fire.lacounty.gov/rsg

Thunderstorms & Lightning Safety

Thunderstorms last an average of 30 minutes and can cause dangerous lightning, large hail, flash flooding, and strong winds. They often develop quickly, and with little warning, it is important to learn the danger signs and plan ahead. Lightning is a leading cause of injury and death from weather-related hazards.

Although most lightning victims survive, people struck by lightning often report a variety of long-term, debilitating symptoms.

Understanding Severe Weather Alerts:

The National Weather Service issues severe thunderstorm watches and warnings to alert the public of potential severe weather. It is important to understand the difference between watch and warning, so you know what to do to stay safe:

- **Severe Thunderstorm Watch: Be Prepared!** Severe thunderstorms are possible in and near the watch area. Stay informed and be ready to act if a severe thunderstorm warning is issued. The watch area is typically large, covering numerous counties or even states.

ADMINISTRATIVE REPORT

October 6, 2021

Page 16

- **Severe Thunderstorm Warning: Take Action!** Severe weather has been reported by spotters or indicated by radar. Warnings indicate imminent danger to life and property. Take shelter in a substantial building. Warnings typically encompass a much smaller area (around the size of a city or small county) that may be impacted by a large hail or damaging wind identified by an NWS forecaster on radar or by a trained spotter/law enforcement who is watching the storm.

HOW TO STAY SAFE BEFORE A THUNDERSTORM THREATENS:

- **PREPARE NOW:** In advance of any storm, be sure your property is secure. Make a list of items outside your home you will need to tie down or put away so that they don't blow away or fly through a window.
- **Be Weather-Ready:** Check the forecast regularly to see if you're at risk for severe weather. Listen to local news or a NOAA Weather Radio to stay informed about severe thunderstorm watches and warnings.
- **Prepare Your Home:** Keep trees and branches trimmed near your house. If you have time before severe weather hits, secure loose objects, close windows, and doors, and move any valuable objects inside or under a sturdy structure.
- **Make a Kit:** Gather supplies that will last for several days after a disaster for everyone living in your home. Don't forget to consider the unique needs each person or pet may have in case you have to evacuate quickly. Update your kits and supplies based on recommendations by the Centers for Disease Control.
- **Create a Communications Plan:** Have a family plan that includes an emergency meeting place and related information. Additional information for creating a communications plan is available at: <http://ready.gov/make-a-plan>
- **Practice Your Plan:** Conduct a family severe thunderstorm drill regularly, so everyone knows what to do if a damaging wind or large hail is approaching. Make sure all members of your family know to go there when severe thunderstorm warnings are issued.

HOW TO STAY SAFE DURING A THUNDERSTORM:

- **Stay Weather Ready:** Continue to listen to local news or a NOAA Weather Radio to stay updated about severe thunderstorm watches and warnings.
- **If You Are Outside:**
 - **When thunder roars, go indoors:** Immediately go inside a sturdy building when severe thunderstorms are approaching and move to

ADMINISTRATIVE REPORT

October 6, 2021

Page 17

an interior room or basement. Take your pets with you if time allows. Take shelter in your car if you are not near a sturdy building.

- If you are in an open area, go to a low place such as a ravine or valley and watch out for flash flooding.
- If you are in a forest, seek shelter in a low area under growth of small trees.
- If you are boating or swimming, get to land and seek shelter immediately.

○ If You Are in a Car:

- Being in a vehicle during severe thunderstorms is safer than being outside; if caught in a vehicle during a severe thunderstorm Safely exit the roadway and park if possible. Stay in the vehicle and turn on the emergency flashers until the heavy rain ends. Avoid touching metal or other surfaces that conduct electricity in and outside the vehicle.
- **Turn Around. Don't Drown!** Just six inches of fast-moving water can knock you down, and one foot of moving water can sweep your vehicle away. Each year, more deaths occur due to flooding than from any other thunderstorm related hazard. People underestimate the force and power of water. Many of the deaths occur in cars swept downstream. It is NEVER safe to drive or walk into flood waters.

○ If You Are Inside a Building

- Stay away from windows and doors. Strong thunderstorms can cause flying debris that could do significant damage.

ADMINISTRATIVE REPORT

October 6, 2021

Page 18

- Avoid using a corded telephone, except for emergencies. Cordless or cellular telephones are safe to use. Unplug appliances, air conditioners, and other electrical items like computers to avoid damage from a power surge.
- Avoid showering, bathing, washing dishes, or doing laundry. Plumbing and bathroom fixtures can conduct electricity.
- Avoid contact with metal objects (yard equipment, motorcycles, bicycles, etc.).
- Stay inside until at least 30 minutes after you last hear thunder or see lightning.

HOW TO STAY SAFE AFTER A THUNDERSTORM:

- **Stay Informed:** Continue listening to local news or a NOAA Weather Radio to stay updated about severe thunderstorm watches and warnings. More severe thunderstorms could be headed your way.
- **Contact Your Family and Loved Ones:** Let your family and close friends know that you're okay, so they can help spread the word. Text messages or social media are more reliable forms of communication than phone calls.
- **Assess the Damage:** After you are sure the severe weather threat has ended, check your property for damages. When walking through storm damage, wear long pants, a long-sleeved shirt, and sturdy shoes. Contact local authorities if you see power lines down.
- **Help Your Neighbor:** If you come across people that are injured and you are properly trained, if needed, provide first aid to victims until emergency response team members arrive.

October is National Pedestrian Safety Month

This October, the National Highway Traffic Safety Administration (NTSA) launched the first National Pedestrian Safety Month with the goal of increasing awareness about pedestrian safety and reminding drivers and walkers that staying safe is a shared responsibility.

5 Walking Safety Tips:

1. Walk on sidewalks whenever they are available. If one isn't available, walk facing traffic and as far from traffic as possible.
2. Keep alert at all times; don't be distracted by electronic devices that take your eyes (and/or ears) off the road.
3. Whenever possible, cross streets at crosswalks or intersections, where drivers expect pedestrians, and look for cars in all directions, including those turning. Wait for a gap in traffic that allows enough time to cross safely, and watch for traffic as you cross.
4. Be visible at all times. Wear bright clothing during the day and wear reflective materials or use a flashlight at night. Never assume a driver sees you. Make eye contact with drivers as they approach to make sure you are seen.
5. Watch for cars entering or exiting driveways or backing up in parking lots.

Learn more about road safety at NHTSA.gov/Pedestrians and look out for more pedestrian safety tips in this report throughout the month of October.

Tips to Prevent Vehicle Burglaries

Take steps today to prevent thefts from your vehicle. Residents are strongly encouraged to use “Lock It or Lose It” prevention tips every day. It only takes a matter of seconds for a thief to break into your car and grab your valuable items.

Look through the windows of your vehicle. What do you see? A bag on the passenger seat? A charging cord? A garage door opener? Change in a cup holder? Take it with you or remove it from plain view and be sure to close all windows and lock doors.

Follow these tips to help prevent vehicle burglaries:

1. Remove all valuable items from your car including purses and electronics.
2. If you must leave valuables behind, put them in your trunk or locked glovebox before you reach your destination. Avoid doing so while in plain view.
3. Close all windows and lock your doors.
4. Park in a locked garage or well-lit areas.

If you see suspicious activity report it immediately to the Lomita Sheriff's Station at 310-539-1661. In case of emergency, call 9-1-1.

FINANCE DEPARTMENT

ABLE Accounts: A Valuable Financial Solution for People with Disabilities

[Achieving a Better Life Experience or ABLE accounts](#) are tax-advantaged savings accounts for individuals with disabilities and their families. These accounts help disabled people pay qualified disability-related expenses without affecting their eligibility for government assistance programs.

Here are some key things people should know about these accounts.

Annual contribution limit

- The 2021 limit is \$15,000.
- Certain employed ABLE account beneficiaries may make an additional contribution up to the lesser of these amounts:
 - The designated beneficiary's compensation for the tax year.
 - The poverty line for a one-person household. For 2021, this amount is \$12,880 in the continental U.S., \$16,090 in Alaska, and \$14,820 in Hawaii.

Saver's credit

- ABLE account designated beneficiaries may be eligible to claim the [saver's credit](#) for a percentage of their contributions.
- The beneficiary claims the credit on [Form 8880, Credit for Qualified Retirement Savings Contributions](#). The saver's credit is a non-refundable credit available to individuals who meet these three requirements:
 - Are at least 18 years old at the close of the taxable year
 - Are not a dependent or a full-time student
 - Meet the income requirements

Rollovers and transfers from section 529 plans

- Families may rollover funds from a 529 plan to another family member's ABLE account.
- The ABLE account must be for the same beneficiary as the 529 account or for a member of the same family as the 529 account holder. Rollovers from a section 529 plan count toward the annual contribution limit. For example, parents would meet the \$15,000 annual contribution limit by contributing \$10,000 to their child's ABLE account and rolling over \$5,000 from a 529 plan to the same ABLE account.
-

Qualified disability expenses

- States can offer ABLE accounts to help people who become disabled before age 26 or their families pay for disability-related expenses. These expenses include housing, education, transportation, health, prevention and wellness, employment training and support, assistive technology, and personal support services.
- Though contributions aren't deductible for federal tax purposes, distributions, including earnings, are tax-free to the beneficiary, if they are used to pay qualified disability expenses.
