**SUBJECT: Notice of Support for S. 2430**

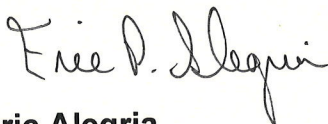

Dear Senator Feinstein and Senator Padilla:

Thank you for introducing the *Water Conservation Rebate Tax Parity Act (S. 2430)*. The City of Rancho Palos Verdes supports S. 2430, as it would exempt rebates received by residents for water conservation improvements from federal taxes.

As you know, the State of California is facing a continuing drought. As residents are encouraged to conserve, utility companies such as the California Water Service, which serves the Palos Verdes Peninsula, routinely offer rebates to residents for water conservation improvements.

The City appreciates that your bill would exempt such rebates from federal taxes, encouraging more residents to utilize rebate programs. For these reasons, the City is proud to support S. 2430.

Sincerely,

**Eric Alegria**  
Mayor
