

These drawings and accompanying specifications, as instruments of service, are the exclusive property of the architect and their use and reproduction for any other project, in whole or in part, is prohibited except by written permission from the architect. Title to these plans and specifications shall remain with the architect unless otherwise provided. No part of these drawings shall be reproduced, stored in a retrieval system, or transmitted in any form or by any means, electronic, mechanical, photocopying, recording, or by any information storage and retrieval system, without the prior written permission of the architect.

	<p><b>7 TILE @ WALL</b> NO SCALE</p>
	<p><b>6 TILE @ CONC. SLAB JOINT</b> NO SCALE</p>
	<p><b>5 EXPANSION JOINT-NEW</b> NO SCALE</p>
	<p><b>4 JOINT @ FLOOR DRAIN</b> NO SCALE</p>

NOTE: GRADE ELEVATIONS INDICATED ON THIS PLAN ARE FOR REFERENCE ONLY. THEY WERE DERIVED FROM AS-BUILT DRAWINGS & WERE NOT CHECKED FOR ACCURACY.

- NOTES:**
- All exterior tile pavers shall be removed (unless noted otherwise).
  - Expansion joints shall be cut into existing concrete slab per new detail.
  - Concrete slab shall be scraped clean of all mortar or other matter then given a light sandblast to scarify the surface and remove any traces of curing compound residue.
  - Layout of new expansion joints shall be per drawing. If existing expansion joints occur in the concrete slab in locations other than shown on the new plan contractor shall:
    - Provide expansion joints in tile pavers directly above.
    - Contact architect to verify if the detailed location of joints needs to be altered.
  - Depressions, cracks or other irregularities in the concrete slab shall be filled with an epoxy cement leveling compound.
  - Expansion joints in new tile pavers shall occur at the following locations:
    - All vertical retaining walls
    - All vertical building walls
    - All concrete curbs
    - All drains
    - As detailed on drawings or noted in Item #4 above.
- 1 NOTES**
